NEW FILM AND PHOTOGRAPHY STUDIO LAUNCHES IN THE NORTH

SUDBURY – The Northern Ontario film industry has a new studio in the Sudbury region!

Introducing BRB Studio, a 10,000 sq ft multipurpose production facility dedicated to photography and the motion picture arts.

We are excited to announce our Phase I soft-launch and invite the media to book a studio tour to discover more throughout the month of August.

With modern commercial office spaces and a show-ready studio floor, the location has already emerged as a top destination for film productions looking to call Northern Ontario home.

Founded as the Club Allegri community hall in Coniston, the space has been renovated and restored to offer top-quality studio amenities.

BRB Studio and our team are committed to launching another economic driver in the area. We hope to draw artist, technicians, writers and producers in order to position this former mining-town as a hub for Ontario's northern film community.

BRB Studio founder, Peter Mihaichuk, has over 15-years-experience in Canada's film industry, working as Production Designer and Art Director for top-tier productions including *Star Trek Discovery*, *American Gods*, *Predator*, *Letterkenny* and *Prison Break*.

Whether it's a commercial, music video, TV series, feature film, passion project or photo shoot – BRB Studio is the perfect place for any production!
