

## Market Profile

Sudbury is the business center of the film industry in Northern Ontario. As the fastest-growing municipality in the North, we have the local crew, infrastructure, studio space, equipment and supporting businesses to service any production. We are the second largest municipality in Canada and possess an unparalleled diversity of locations. Our landscapes include powerful waterfalls cutting through old-growth forests, turn-of-the-century farms, industrial facilities with mines and caverns, gritty and pristine urban downtowns, small-town centers and a wide range of styles in residential neighbourhoods.
