

Special Effects Filming Site Map

A special effects filming site map must be submitted when guns, gunfire, explosives, bomb/mock ups, flash power, detonators, and flammable liquids/materials will be used and/or other dangerous stunts will be performed. The applicant must provide a copy of the map, which explains where all special effects will occur, to the Sault Ste. Marie Police, Fire and Ambulance Services along with the Sault Ste. Marie Economic Development Corporation.

Sketches to Include:

- Identify North direction
- Identify existing infrastructure (i.e. hydrants, traffic lights, etc.)
- Identify street names
- Identify location of production vehicles
- Identify location of camera/dolly track, equipment, etc.
- Identify movement of scenes, traffic/pedestrian interruptions, barricades, etc.
- Identify location and type of special effect (s)
